

CRUEL AND ILLEGAL...

Putting down poisoned bait to kill birds of prey is illegal. North Yorkshire Police are working with the RSPB and the North Yorkshire national parks to put a stop to this cruel and illegal practice.

You can help. If you see a dead or injured bird, poisoned bait or a pole trap, note the location, take a photo and report it. It will help us build the intelligence picture and could lead to a prosecution.

Help us stop bird of prey persecution

Seen a trap or poison bait? **Call 101** to report to the police.
